PROFESSIONAL SUMMARY

Third-year Software Engineering student (NQF 8, graduating 2027) at Belgium Campus iTversity with a 71.6% academic average. I build end-to-end systems across the full stack — from C#/.NET desktop applications to JavaScript/EJS web platforms and Power BI dashboards. I have shipped real projects in academic, civic, and hackathon settings, including serving as Project Manager on a deployed Academic Risk Intelligence Platform and participating in an international cross-disciplinary hackathon with teams from Belgium, Brazil, Germany, and the Netherlands. I am seeking a structured internship where I can apply and expand my technical skills in information systems, software development, or data-informed decision-making.

EDUCATION

Belgium Campus iTversity — Pretoria, South Africa

2024 – 2027

Bachelor of Computing in Software Engineering | NQF Level 8 | 4-Year Degree

- Current year: 3rd year (2026 academic year) | Academic average: 71.6%
- Key modules: Web Programming (EJS, CSS, Node.js), Innovation Management, Project Management, Innovation & Leadership, Database Systems (SQL Server), Software Testing, Object-Oriented Programming (C#)
- 4th year consists of a structured internship placement (6–12 months)

Langenhoven High School – Pretoria, South Africa

2019 – 2023

National Senior Certificate (NSC) | Bachelors Pass | 76% aggregate

- Top 10 student every year from 2019–2023
- 2× Academic Scroll Achievements (2021, 2022)

PROJECTS

CampusIQ — Academic Risk Intelligence Platform

Power BI · SQL · Power Apps

Role: Project Manager (INL381 module) | 2026

- Served as Project Manager, coordinating a team of eight from design through to deployment, managing deadlines, resolving blockers, and running the final presentation.
- Built and deployed a Power BI dashboard integrating student performance data to surface at-risk students early.
- Handled deployment debugging and end-to-end integration between data sources and the dashboard layer.

Smart Event Management & Ticketing Platform

EJS · CSS · Node.js · Git

Role: Frontend Developer (WPR381 module) | 2026

- Led the full frontend build-out using EJS templating and CSS, collaborating with a teammate via Git branch management.
- Resolved a nested folder merge conflict in Git — diagnosed and fixed without reverting any work.
- Built responsive event listing, ticketing flow, and user-facing pages from scratch.

Green Guardian — Civic Cleanliness AI App 🦿 Hackathon

HTML · CSS · JavaScript · AI API

Hack the Waste — 24-hour international hackathon, Leuven, Belgium | May 2026

- Built a mobile-first civic reporting application for the City of Leuven in a 24-hour online hackathon alongside international teams from Belgium, Brazil, Germany, and the Netherlands.

- Implemented a live GPS-based heatmap, AI waste-type scanning, photo evidence upload, duplicate report detection, and an admin panel for cleanup team assignment — all in a single-file HTML/JS application.
- Created a Green Guardian Business & Marketing Strategy illustrating problem statement, solution, implementation of solution, target market & stakeholders.
- Certificate of participation awarded by HackTribe (Certificate ID: 4a99de4f-04a6-4442-ab48-aa09b717e891).

Healthcare Management System [GitHub ↗](#)

C# · .NET · SQL Server

Group project (2nd year). Desktop system for hospitals to manage employee and patient records, with integrated patient history tracking and data persistence via SQL Server.

Healthcare Management System — Testing Suite [GitHub ↗](#)

C# · Unit Testing · .NET

Dedicated test repository for the healthcare system. Wrote unit tests covering core business logic — demonstrates understanding of software quality assurance and test-driven verification.

Smart Fitness Tracker Web App [GitHub ↗](#)

HTML · CSS · JavaScript

Group project (2nd year). Multi-page web application for workout tracking, goal setting, workout reporting, and fitness trainer booking. Built with vanilla JS and structured CSS.

SuperHero Management System [GitHub ↗](#)

C# · .NET · File I/O

Group project (3rd year, PRG282). C# console/desktop application demonstrating object-oriented design, collections management, and file-based data persistence.

Website Portfolio Creation [GitHub ↗](#)

HTML · CSS · JavaScript

Group project (1st year). Multi-page portfolio website — led the responsiveness implementation and Portfolio page build-out. Stack: HTML, CSS, and vanilla JavaScript.

High School Database System [GitHub ↗](#)

SQL · Database Design

Database design and implementation project — schema design, entity relationships, and SQL queries for a school management context.

TECHNICAL SKILLS

Languages	C#, JavaScript, SQL (Microsoft SQL Server), HTML5, CSS3
Frameworks & Tools	EJS, Node.js, .NET / C# WinForms, Microsoft Power BI, Microsoft Power Apps, Git / GitHub
Concepts	OOP, MVC, Unit Testing, Responsive Web Design, Database Design (ERDs), Version Control (branching, merging, conflict resolution), Agile / Scrum, Project Management
Software	Microsoft Office Suite, Visual Studio, VS Code, Microsoft SQL Server Management Studio

WORK EXPERIENCE

Fieldworker — Independent Electoral Commission (IEC)

2026

TIC Youth Voter Registration Initiative · South Africa

- Appointed to the IEC's TIC Youth registration drive — spread awareness and encouraged South African citizens to register and exercise their right to vote.
- Coordinated community outreach, demonstrated ability to engage professionally with diverse members of the public.

Academic Tutor — Just Everything Academics & Freelance

2024 – Present

Subjects across multiple academic levels

- Tutored learners across multiple subjects, building clear explanations, managing session schedules, and maintaining reliability with students and parents.

- Developed patience, structured communication, and the ability to adapt explanations to different learning levels.
-

ACHIEVEMENTS & LEADERSHIP

Hackathon

- Hack the Waste 2026 — International 24-hour hackathon, City of Leuven challenge. Cross-disciplinary team spanning four countries. Certificate ID: 4a99de4f (HackTribe).

Academic

- 2× Academic Scroll Achievements — Belgium Campus ITversity (2021–2022)
- Top 10 Student throughout high school (2019–2023)
- Team Chess League Winner (2023) — Helped lead Langenhoven High School to a district-level victory

Leadership

- Member, Academic Committee — Langenhoven High School (2022–2023)
 - Member, Representative Council of Learners (RCL) — Langenhoven High School (2019–2022); represented the student body, organised academic events, and advocated for learner needs
 - Grade 11 Grade Committee Member, RCL (2022)
-
